

Page 1 - Login

The image shows a wireframe of a web browser window. At the top, there is a header bar with navigation icons (back, forward, refresh, home) and a URL field containing the text "http://eldershield.com/login". Below the header is a large white area representing the main content of the page. In the center of this content area is a rectangular form box with a thin black border. Inside the form box, the text "User Login" is centered at the top. To the left of the "Username" label is a text input field. To the left of the "Password" label is another text input field. Below these fields is a large, rounded rectangular button labeled "Submit". At the bottom center of the content area, outside the form box, is the text "ElderSheild Logo".

Admin - View/Resolve Notifications

The mockup illustrates a web-based administrative interface for managing notifications. At the top, a header bar contains navigation icons (back, forward, refresh, home) and a URL field showing <http://eldershield.com/admin-notifications>. Below the header, a main title "Notifications Page" is displayed next to a home icon and a "Log Out" button.

The left side of the interface features a list of notifications:

- Notification 1 (marked with a bullet point)
- Notification 2

Notification 3

Notification 4

Notification 5

Next to the first notification, there is a "Resolve" button. To the right, a detailed view for "Notification 1" is shown in a box:
